# NEWHAM STAY SAFE APP

Newham Council has launched a reporting app to promote women's safety in the borough.

Newham Stay Safe App enables reporting of street harassment incidents and safety concerns. The app will feature tools to upload evidence in the form of photos, videos and audio.

It will enable you to get access to specialist support, report incidents for investigation by the Police or Council anonymously and provides a direct route through to the 24/7 Stop Hate UK helpline.

The app is designed to give reassurance as well as a sense of safety and security whilst travelling out at night. It aims to empower women and girls and encourage reporting of any incidents where they feel unsafe in public spaces.

The app will help gather useful information which can be used to hold perpetrators to account and bring them to justice as well as target our resources to make our streets safer.

Newham Council is committed to tackling violence against women and girls and Newham Stay Safe app is another action we are taking to make women and girls feel safer in Newham and send a clear message that street harassment will not be tolerated.
